## *ICI Chapter*

Indian Concrete Institute is one of the leading professional bodies in India, catering to the professional needs of individuals and organizations involved in Concrete. Being a non-profit Organization, it is dedicated to the cause of Disseminating Knowledge on Concrete, to Promote Concrete Technology and Construction and to address the Research Needs of Concrete. The Genesis of ICI dates to the year 1982, when SERC Chennai and Anna University jointly conducted an International Seminar on Modern Concrete Construction Practices. The overwhelming response to the seminar prompted the Organizers to start the Indian Concrete Institute. Thus, the ICI was born in 1982 with around 500 members from 5 regional Centers.

Today ICI is a strong professional body having more than 13, 000 enrolled members, from 44 regional Centers in all major cities, spread across the entire length and breadth of the country. All segments of cement and concrete industries are widely represented in the membership. To meet the objectives of ICI, the regional Centers conduct varieties of programs like Seminars, Workshops, Conferences, Exhibitions, etc. throughout the year. These are at both National and International level. These events prove to be a unique platform, for all the stakeholders in the concrete industry, wherein Practicing Engineers, Manufacturers, Academics, Consultants and Researchers make their global participation, to discuss the issues, to share their views and experience on the concrete related matters.
