On**

Patent and it's importance in Research

A One-Day Webinar on **Patent and it's importance in Research** was organized by the MCA Department in association with R&D Cell, on 25th June 2020. Mrs. Preethi Narayanan, Patent Consultant, Chennai acted as a speaker. The webinar started with welcome speech by Mr. M. E. Palanivel, HOD, MCA department and Dr. Y. Murali Mohan Babu, R&D coordinator and then, Resource person introduced by Dr. M. Kalpana Devi, Convener, and then session started. This webinar intended for Faculty as well as Students.

A patent is a legal document that is granted to an inventor by the patent office in order to protect the subject matter seeking protection. Simply put, a patent is an exclusive right conferred by the Government on an inventor, to prevent others from exploiting the patent without his permission. Essentially, a patent is granted for an invention. In order to obtain a patent for an invention, the inventor is required to make sure that the invention consists of one or more elements that are new, failing which, the invention will not qualify for patenting. All the Faculty members and students , who have attended showed keen interest in the topic and gained knowledge on how to prepare patent application and how the document for invention has to be prepared.

- Speaker Details** : Mrs. Preethi Narayanan, Patent Consultant, Chennai.
Convenor : Dr. M. Kalpana Devi, Assoc Professor, MCA Department, SITAMS.
Date : 25-06-2020
