Date : 10-10-2023

A Guest Lecture was organized by Department of Management Studies, Sreenivasa Institute of Technology and Management Studies, Chittoor on 10th December, 2023 in SITAMS for the MBA students under the leadership of Principal **Dr. N.Venkatachalapathi**. The topic of Lecture was "**RECRUITMENT- TALENT HIRING**". The guest speaker was heartily welcomed by **Dr.K.Sudarsan**, HOD, Department of Management Studies. The keynote speaker **Ms. Rupa Karnati**, Talent Acquisition Specialist, Human Resource, ANSR Companies, Bangalore..

Principal **Dr. N.Venkatachalapathi** addressed that in the present scenario the students should know awareness about the "Recruitment- Talent Hiring" and acquire knowledge on the same.

Ms. Rupa Karnati explained about the "Recruitment- Talent Hiring" and how it useful to the common people along that he may say about the a talent acquisition interview is one that helps employers determine if a candidate is qualified for the role of a talent acquisition professional. Throughout this interview, an employer may ask you questions to learn more about your interpersonal skills and abilities to find qualified candidates. Someone in this position needs the ability to build a network of contacts and connect with people looking for a job. A talent acquisition interview is a way employers can assess these abilities.

And have discussed difference between talent acquisition and recruiting Though talent acquisition professionals and recruiters have many overlapping job duties, there are a few key differences between these two roles. While recruiters primarily focus on filling open positions, talent acquisition managers and specialists focus more on creating a long-term human resources

Guest lecture on Importance of Cyber Security in BFSI

Department of MBA, SITAMS has organized a guest lecture on 25-11-2023. The title of this programme is **Cyber Security in BFSI** for MBA and MCA students in Sreenivasa Institute of Technology and Management Studies, Chittoor. For this programme Mr. Rukesh NK, Inside Sales Engineer, Data Protection Architect Commvault Pvt. Ltd., Bangalore was acted as Chief Guest.

Chief Guest Mr. Rukesh started his session with BFSI stands for Banking, Financial Services, and Insurance. The BFSI sector works by offering various financial products and services such as banking accounts, loans, insurance policies, investments, and more. It involves managing funds, assessing risks, providing financial advice, facilitating transactions, and complying with regulations to ensure the smooth functioning of the financial ecosystem. The sector uses technology, employs professionals skilled in finance and risk management, and operates within a regulatory framework to serve its customers. He also said that the Cyber security in the BFSI industry is one of the critical areas of concern today. The banking and financial services industry is highly regulated on the cyber security front. The growing sophistication, severity, and lethality of cyber security threats to the financial sector further accentuate the industry's challenges.

He also enlighten on cyber security in the financial sector is important because of the nature and volumes of data that the banks and financial institutions hold. Suppose attackers gain access to financial sector data, they can easily auction off stolen data to the highest bidders and use the credentials to steal millions of dollars from customer accounts. The high cost of data breaches is another major reason why cyber security in the banking industry is critical. One of the key contributing factors to this high cost is the average time to identify and contain data breaches. This was found to be 233 days – that's around 8 months! The attackers have sufficient time to steal data or siphon money from user accounts. Major Cyber threats facing the BFSI Industry is Phishing, Ransomware, DDoS Attacks, Spoofing, Insecure Third-

Party Services. Finally he concluded that with robust, multi-layered, and futuristic security providers like Indusface, the threats to cyber security in the BFSI industry can be effectively mitigated and the security posture can be hardened.

The participants gained knowledge on the importance of cyber security in Banking, Financial Services, and Insurance, particularly the regulation of cyber security, various types of cyber sites, protection from the cyber security.

GUEST LECTURE ON

**Awareness Session on Commodity Derivatives Markets Sponsored by
NCDEX**

Date : 20-01-2024

A Guest Lecture was organized by Department of Management Studies, Sreenivasa Institute of Technology and Management Studies, Chittoor on 20th January, 2023 in SITAMS for the I-MBA & I-MCA students under the leadership of Principal **Dr. N.Venkatachalapathi**.

The topic of Lecture was “Awareness Session on Commodity Derivatives Markets Sponsored by NCDEX”. The guest speaker was heartily welcomed by Dr.K.Sudarsan, HOD, Department of Management Studies. The keynote speaker **Dr. J. Murthy**, SEBI Certified Financial Education Resource Person.

Principal **Dr. N.Venkatachalapathi** addressed that in the present scenario the students should know awareness about the “Awareness Session on Commodity Derivatives Markets” and acquire knowledge on the same.

Dr. J. Murthy explained about the “Awareness Session on Commodity Derivatives Markets”

The program starts with the meaning of derivatives like Derivatives are financial contracts whose value is linked to the value of an underlying asset. They are complex financial instruments that are used for various purposes, including speculation, hedging and getting access to additional assets or markets. A derivative is a complex type of financial security that is set between two or more parties. Traders use derivatives to access specific markets and trade different assets. Typically, derivatives are considered a form of advanced investing. The most common underlying assets for derivatives are stocks, bonds, commodities, currencies, interest rates, and market indexes. Contract values depend on changes in the prices of the underlying asset.

**SREENIVASA INSTITUTE OF TECHNOLOGY AND MANAGEMENT STUDIES
(SITAMS)
(AUTONOMOUS)**

Murukambattu, Chittoor, Andhra Pradesh

Derivatives can be used to hedge a position, speculate on the directional movement of an underlying asset, or give leverage to holdings. These assets are commonly traded on exchanges or OTC and are purchased through brokerages. The Chicago Mercantile Exchange (CME) is among the world's largest derivatives exchanges. CME Group. "About CME Group."

Discussed about the Advantages and Disadvantages of Derivatives:-

Advantages

As the above examples illustrate, derivatives can be a useful tool for businesses and investors alike. They provide a way to do the following:

- Lock in prices
- Hedge against unfavorable movements in rates
- Mitigate risks

These pluses can often come for a limited cost.

Derivatives also can often be purchased on margin, which means traders use borrowed funds to purchase them. This makes them even less expensive.

Disadvantages:-

Derivatives are difficult to value because they are based on the price of another asset. The risks for OTC derivatives include counterparty risks that are difficult to predict or value. Most derivatives are also sensitive to the following:

- Changes in the amount of time to expiration
- The cost of holding the underlying asset
- Interest rates

These variables make it difficult to perfectly match the value of a derivative with the underlying asset. The programme end by vote of thanks presented by Co-Ordinator – MBA Dr. K. Sudarsan, faculty and students of MBA has participated in the event.

GUEST LECTURE ON

How to meet Industrial Expectations by Management Students

Date : 15-03-2024

A Guest Lecture was organized by Department of Management Studies, Sreenivasa Institute of Technology and Management Studies, Chittoor on 15th March, 2024 in SITAMS for the I- MBA & II-MBA students under the leadership of Principal **Dr. N.Venkatachalapathi**.

The topic of Lecture was “**How to meet Industrial Expectations by Management Students**”. The guest speaker was heartily welcomed by Dr.K.Sudarsan, HOD, Department of Management Studies. The keynote speaker **Sri Siva Rama Prasad.T**, Vice President at Oriental Hydraulics Pvt Ltd.

Principal **Dr. N.Venkatachalapathi** addressed that in the present scenario the students should know awareness about the “**How to meet Industrial Expectations by Management Students**” and acquire knowledge on the same.

Sri Siva Rama Prasad.T explained about the “**How to meet Industrial Expectations by Management Students**”.

The program starts with the introduction to the topic. In today's dynamic and competitive business landscape, management students are tasked with not only acquiring theoretical knowledge but also developing practical skills that align with industrial expectations. Employers seek candidates who possess a blend of technical expertise, soft skills, and a proactive attitude towards professional growth. Meeting industrial expectations as a management student involves a strategic approach to education, skill development, and networking. This guide aims to provide management students with actionable steps to enhance their readiness for the industry and maximize their career prospects.

8. **Demonstrate Ethical Behavior:** Integrity and ethical behavior are non-negotiable traits in management roles. Uphold ethical standards in your academic and professional endeavors to earn the trust and respect of employers.
9. **Cultivate Global Perspective:** In today's interconnected world, companies seek professionals who understand global markets and cultural differences. Take advantage of study abroad programs, language courses, and international internships to develop a global perspective.

By focusing on these aspects, management students can better align themselves with industrial expectations and increase their employability in the competitive job market.

The programme end by vote of thanks presented by Co-Ordinator –Dr. Jyoshna.C, faculty and students of MBA has participated in the event.
