

FACULTY MEMBERS RESEARCH JOURNALS

2020-2021

| S.No | Name of the Faculty and Designation | Department | Title of the Paper                                                                                                                         | Name of the Journal & Vol., Issue., Month & Year                                                                                                                                                  | Indexing details. |
|------|-------------------------------------|------------|--------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| 1    | Dr.K.Gopi                           | ECE        | REGION OF INTEREST BASED NOVEL CODING TECHNIQUE FOR EFFICIENT COMPRESSION AND TRANSMISSION                                                 | Palarch's Journal of Archaeology of Egypt/Egyptology 17(7), 5657-5669. ISSN 1567- 214x, Nov 2020                                                                                                  | Scopus            |
| 2    | Dr.S.Vijaya Kumar                   | ECE        | Pervasive computational model and wearable devices for prediction of respiratory symptoms in progression of COVID-19                       | International Journal of Pervasive Computing and Communications – IJPCC (Emerald Publishing Limited), accepted on 8th July 2020, 16(4), DOI 10.1108/IJPCC-07-2020-0077 (Web of Science & Scopus). | Scopus&WoS        |
| 3    | Dr.C.Kavitha                        | ECE        | Study of diesel fuel multiple injection characteristics using shadow-graphic imaging technique with CRDI system in constant volume chamber | Fuel, Vol 279, (1), Nov 2020                                                                                                                                                                      | Scopus&WoS        |
| 4    | Dr.Y.Nazeer Ahmed                   | ECE        | A Planar Inverted-F Antenna (PIFA) loaded with slot for RF Energy harvesting Application                                                   | International Journal on Communications Antenna and                                                                                                                                               | Scopus            |

|    |                            |     |                                                                                                                                        |                                                                                                       |                       |
|----|----------------------------|-----|----------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|-----------------------|
|    |                            |     |                                                                                                                                        | Propagation, Vol 10, issue 1, pages 51 -57,2020.                                                      |                       |
| 5  | K.Yogaprasad               | ECE | REGION OF INTEREST BASED NOVEL CODING TECHNIQUE FOR EFFICIENT COMPRESSION AND TRANSMISSION                                             | Palarch's Journal of Archaeology of Egypt/Egyptology, 17(7), 5657-5669. ISSN 1567- 214x, Nov 2020     | Scopus                |
| 6  | V.G.Hamsaveni              | ECE | Green synthesis of $\alpha$ -Fe203 nanoparticles using murrayakoenigii extract                                                         | Solid state technology, 63(4), 2020                                                                   | Peer reviewed journal |
| 7  | K.M.Hemambaran             | ECE | REGION OF INTEREST BASED NOVEL CODING TECHNIQUE FOR EFFICIENT COMPRESSION AND TRANSMISSION                                             | Palarch's Journal of Archaeology of Egypt/Egyptology 17(7), 5657-5669. ISSN 1567- 214x, Nov 2020      | Scopus                |
| 8  | S.Ashmad                   | ECE | Path way for critical review on early prediction of bone density through various techniques                                            | Bioscience biotechnology research communication, 13(13)                                               | Peer reviewed journal |
| 9  | G.Erna                     | ECE | A Novel FPGA Implementation of Error Reduction in 8,16 and 32-Bit Scalable Approximate Rounding Based TOSAM (3,7) and (4,8) Multiplier | International journal of future generartion communication and networking 11(13), 1191-1205, 2233-7857 | Peer reviewed journal |
| 10 | K.Naveena                  | ECE | Implementation of Autonomous sensor-based E-waste monitoring System                                                                    | Biosc.biotech.Res comm, vol (14), no.09, 2021                                                         | Peer reviewed journal |
| 11 | Dr .K. Sudarsan, Professor | MBA | Non-Performing Assets of Scheduled Commercial Banks in India – Multiple                                                                | Journal of the Social Sciences                                                                        |                       |

|    |                                                 |                          |                                                                                                                                                 |                                                                                                                                                                                                         |                          |
