

INTERNSHIP OPPORTUNITY PROVIDED

BY DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

UNDER THE BANNER OF SPARK CLUB

ACADEMIC YEAR: 2025-26

DATE:21/11/2025

The Department of Computer Science and Engineering, under the banner of SPARK CLUB, organized an important industry-connect initiative titled “Internship Opportunity Provided” on 21st November 2025 at Sri Vensy Pvt. Ltd., Tirupati. This program was arranged to support students in fulfilling the new mandatory requirement introduced by JNTUA, which states that all students must undergo an offline internship as part of their academic curriculum.

To ensure that students receive genuine industrial exposure without facing the difficulties of finding companies on their own, the department collaborated with Sri Vensy Pvt. Ltd., an organization approved by APSCHE and AICTE. This collaboration aimed at establishing a direct relationship between the industry and students, enabling them to gain hands-on learning experience that aligns with current technological demands. The representatives of Sri Vensy Pvt. Ltd. conducted an informative session where they introduced students to emerging technologies, workplace expectations, and current trends in software development, networking, artificial intelligence, data analytics, and related domains. They elaborated on how internships strengthen students’ technical foundations and improve their readiness for corporate environments.

1. During the interaction, students received valuable insights into:
2. How to select the right internship domain based on their career goals
3. Current industry tools and platforms used in real-time projects
4. Major project planning and execution based on industry requirements
5. Future career opportunities and skill development pathways
6. The importance of professional ethics, documentation, and teamwork in industrial settings

The experts also assured continuous guidance and mentorship to the students throughout their internship period. They explained how the company would support them in completing meaningful project work, which will significantly contribute to their final year major project.

This initiative enabled CSE students to secure offline internships effortlessly, without the struggle of searching for companies or verifying their credibility. It created a smooth, structured, and reliable pathway for real-time learning, strengthening the bridge between academia and industry.

Overall, the program was highly beneficial, providing students with career clarity, technological awareness, and confidence to step into practical industrial environments. The Department of CSE expresses its sincere appreciation to Sri Vensy Pvt. Ltd., Tirupati, for their collaboration and support in creating valuable opportunities for students under the SPARK CLUB banner.
