INDUSTRIAL VISIT

ORGANIZED BY DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

ACADEMIC YEAR: 2025-26

The Department of Computer Science and Engineering (CSE) organized an Industrial Visit to Sri Vensy Pvt. Ltd., Tirupati on 10th October 2025. The visit aimed to bridge the gap between academic learning and industrial practices, providing students with an opportunity to understand the implementation of Artificial Intelligence (AI) and Data Science in real-world software development.

The visit was successfully coordinated by Mr. V. Shaik Mohammad Shahil, Assistant Professor & IV Coordinator, along with 3 Faculties and the support of Class Representatives who served as student coordinators. A total of students from the CSE Department participated enthusiastically in the program.

The key objective of this visit was to enhance students' practical knowledge of AI-driven applications, data handling, and analytical techniques used in the IT industry. The officials at Sri Vensy Pvt. Ltd. provided detailed presentations and demonstrations on AI technologies, machine learning workflows, data preprocessing methods, and model deployment practices.

During the interactive sessions, students were given exposure to real-time data analysis tools and frameworks widely used in AI-based projects. They also learned how industries collect, clean, and analyze data to derive meaningful insights and automate decision-making processes. The company experts shared valuable insights into software development life cycles, project execution methodologies, and the importance of data security and ethics in AI systems. Students had the opportunity to engage in discussions with technical professionals, gaining clarity on career prospects in AI, Data Science, and Software Engineering. The session also emphasized the growing demand for AI professionals and the skill sets required to excel in the field.

The visit helped students relate theoretical concepts learned in the classroom with real-world industrial applications, encouraging them to explore innovative approaches in their academic projects. The experience also boosted their confidence in handling emerging technologies and motivated them toward continuous learning and skill development.

Overall, the industrial visit to Sri Vensy Pvt. Ltd. proved to be a highly informative and enriching experience, enabling students to gain practical exposure, real-time understanding, and professional insights into the dynamic world of Artificial Intelligence and Data Science. The department extends its sincere thanks to the management of Sri Vensy Pvt. Ltd. for their support and hospitality.
