

One Day Seminar Program on “Coding Skills Using Java”

Resource : Mr. Hari, MD, Java Home Cloud.

Date : 13th Oct 2023

SITAMS college, organized one day seminar on Java Coding Skills by Mr. Hari, Managing Director, Java Home Cloud.

Mr. Hari has a corporate experience of 14 years and worked with different Multinational Corporations as Developer. He handled projects in different domains using multiple programming languages.

Mr. Hari explained the candidates in detail about the programming paradigm, How to analyze the problem, how to improve the problem solving skills. He demonstrated the concepts with coding examples. He presented the workflow Of the organization and the skills required to get placed in corporate companies.

The workshop went well for 4 hours. Mr. Hari gave examples of the companies recruitment patterns, coding competition patterns and other related coding problems. At the end of the session students acquired knowledge on problem solving skills and coding skills. The depth of concept he explained was very useful for the students.

The management of SITAMS, Principal and HoDs appreciated the efforts of Mr. Hari in providing the knowledge of coding to the students.
