### 1. Action taken report on minutes / resolutions of BOS Meeting held on 05.07.2024

Resolved to ratify **Action Taken Report** on minutes / resolutions of the 8<sup>th</sup> BOS meeting held on **05.07.2024** submitted by the Chairman, BOS (ECE). As suggested by the members, the improvements were made in various academic, research and extension activities.

### 2. Report on implementation of Autonomy

Chairman BOS presented a report on implementation of autonomy to the members. The board has congratulated the college authorities for successful implementation of SITAMS R23 Regulations and Syllabus for II Year B.Tech. (III Sem. & IV Sem.) during the academic year 2024-25.

The board authorize the BoS Chairman to implement any further amendments as needed in the curriculum/syllabus. The board also authorize the Chairman-BoS to adopt appropriate changes inline with JNTUA instructions for the successful implementation of R23.

### 3. R23 B.Tech Course Structure & Syllabi of III, IV Year B.Tech. ECE & Subjects offered to other departments and R25 M.Tech Course Structure & Syllabi

Chairman of BOS, ECE presented the R23 Course structure and syllabus of III Year and IV Year B.Tech. ECE & Subjects offered to other departments. It is approved by the BoS members.

The following suggestions are given by the experts which may be included:

The University nominee Dr. D.Vishnuvardhan, the subject experts Dr.M. Bhaskar & Dr. G. Umamaheswara Reddy and Dr.N.Nandakumar have given suggestions to add topics, modify title, etc. as given below:

#### 1. Analog and Digital IC Applications

The BoS Chairman recommended incorporating topics on **CPLD and FPGA** into the Digital IC units. It was also proposed to remove the sections on **combinational and sequential circuits**, as these topics are already covered in the Digital Electronics course.

#### 2. Antennas & Wave Propagation

Experts observed that the content in this course is extensive. They suggested reducing the syllabus by removing certain topics and including **modern antenna concepts** to make it more relevant.

### **3. Digital Signal Processing**

Similarly, the experts noted that the syllabus is heavy. They recommended streamlining the content by removing less critical topics.

### **4. Computer Architecture & Organization**

The subject expert suggested to add communication buses along with the existing content on input and output organization to enhance the course.

### **5. Digital Image Processing**

The BoS Chairman proposed removing DFT with properties and some transforms from Unit 1, as well as color image processing from Unit 5 to optimize the syllabus.

### **6. Electronic Circuits (Open Elective)**

This open elective, offered to other departments, was deemed too detailed. The BoS Chairman suggested reducing the syllabus by removing the sections on multi-stage amplifiers and selected topics from the feedback amplifiers and oscillators unit.

### **7. Signals and Systems (Open Elective for EEE)**

For this elective, it was requested to reduce the content by removing certain topics to make it more manageable for students from the EEE department.

### **8. Evaluation Practices**

It was emphasized that rubrics must be followed rigorously for evaluating the Community Service Project (CSP) and internship components.

### **9. R25 – M.Tech Credits**

The experts have recommended verifying the total credits for the R25 M.Tech program. They suggested ensuring that students are able to earn a total of 80 credits, which may be achieved by incorporating two NPTEL courses and an industry internship into the curriculum. This suggestion may also be considered for further evaluation and possible implementation across other M.Tech programs offered by the institution.

### **10. B.Tech Students – NPTEL Courses**

The BoS members recommended that B.Tech students undertake NPTEL courses to enhance their expertise in their selected verticals and acquire deeper domain-specific knowledge.

The above recommendations were presented for approval and were accepted by the Board members. Furthermore, the members authorized the BoS Chairman to make appropriate future modifications as necessary to uphold and enhance academic standards.

## **4. Panel of Experts for question paper setting for the academic year 2025-2026**

The panel of experts for question paper setting for the academic year 2025-2026 is approved by the board.

The members authorize the BoS Chairman to include any changes as required to maintain the quality. The suggestions are submitted for kind appraisal by the Academic Council.

## 5. Teaching, Learning and Evaluation Practices

The members of BOS appreciated the good practices followed by the department with the help of different monitory committees like DAQIC, DCDC, Class Committee and Mentoring system in the conduct remedial and reinforcement classes, offering of necessary add-on courses as desired, FDPs and SDPs.

## 6. Research Activities

The Chairman, BOS(ECE) has briefed the members on research activities taken in the Department. The Chairman also has submitted the details of faculty publications in refereed Journals, Project proposals submitted and the same is approved. Members suggested to support students academically as well as financially to improve their research capabilities.

## 7. Faculty Development Activities

The chairman BOS presented the Faculty development activities proposed for the academic year 2025-2026. The Members have also suggested to participate in the training programs and workshops at various reputed institutions.

## 8. Student Development Activities

The Chairman, BOS(ECE) has submitted the details of student development activities planned to be conducted for the academic year 2025-26. The same is approved by the BoS.

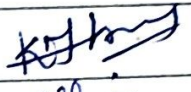

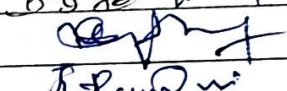

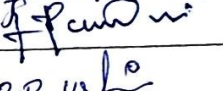

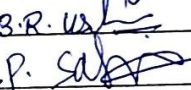

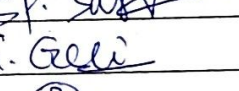

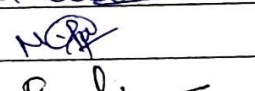

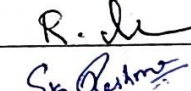

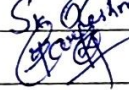

## 9. Extension / Association Activities

Chairman, BOS (ECE) has presented the Department Student association activities organized by the department and the activities plan for 2025-2026. It is approved by the board.
